DDS554 is a 29W meter RGB- White led strip with 168 led 3014 + 84 led RGB per meter. To produce our indoor flexible LED strips, we use 3-step McAdam and high quality RGB LEDs, gold plated flexible double side PCB and constant current control inside the LED strip. Thermal conductive adhesive tape guarantees perfect heat transfer to the mounting surface. All of our product features guarantee extra long lifetime and stable

performance. Our flexible LED light strips are designed for long term professional lighting applications and perfectly fit in any linear applications.
